Annual Food Drive Benefiting the Mercy House

*'Tis the Season to be Gracious,
Grateful and Giving!*

We will be collecting donations for our Annual Food Drive starting November 4th. All items collected will be donated to the local Mercy House.

We can accept dry, canned, nonperishable food donations. And remember, only donate food that hasn't reached its "sell-by" date yet.

Please bring your items to the Clubhouse and place them in the containers provided.

**We will collect items from
11/4-11/22.**

The Little Prince

Forbes Center

Friday, 11/8 - Sunday, 11/10

Based on the beloved children's book by Antoine de Saint-Exupéry, *The Little Prince* is a profound fable about childhood, adulthood, love, and loss.

First performed at Houston Grand Opera in 2003, this operatic adaptation is the rare work of art that provides solace to both young and old alike. When a pilot crashes in the middle of an African desert, he encounters the mysterious Little Prince. What began as an awkward meeting in a moment of crisis, becomes a lasting friendship as the Little Prince shares his life and interstellar adventures as they work together to get back home. Both joyful and melancholy, childlike and wise, this opera perfectly encapsulates *The Little Prince*, and its adventurous harmonies and rapturous melodies.

Saint-Exupéry's *The Little Prince* has been translated into nearly every language and speaks as clearly to us today as it did when it was published in 1943.

Zero Waste Kitchen 101

Zero Waste Kitchen 101 is an event happening at 3pm on November 10th at Greatfull Goods inside the Shops at Agora! Join this event to learn all about reducing waste in your kitchen.

Discover tips and tricks on how to minimize food waste, properly store or reimagine leftovers, and make sustainable choices when shopping for groceries. Don't miss out on this opportunity to take a step toward a more sustainable lifestyle! We will be tasting a recipe that is not nut-allergy friendly.

Veterans Day Parade

Sunday, November 10th @ 4pm

Each November, our community lines Main Street to honor the veterans who have served our nation in war and peacetime. Veterans groups and community members are invited to participate in the parade and show their support during one of our most meaningful events of the year. Harrisonburg Downtown Renaissance is delighted to host the Veterans Parade on Sunday, November 10, starting at 4 PM.

Maintenance Corner

Tripped Breaker Information

Welcome to the Maintenance Corner!

Each month we will be spotlighting a maintenance reminder, tip or general maintenance information. This month... Tripped Breakers!

What is a tripped breaker? A tripped breaker is a circuit breaker that has automatically shut off to prevent a circuit from receiving too much power or overheating. A power breaker trip is an annoying occurrence, fortunately, it's easy to fix a circuit breaker trip in just a few minutes.

How To:

Turn Off Devices on the Circuit

- Turn off all devices on the electrical circuit. This includes the device that may have caused the breaker to trip, such as a microwave, hairdryer, or A/C, plus all other devices on the same circuit.

Find the Electric Service Panel

- The electric service panel, is a metal box inset into the wall with a door. The box can be located behind the entry door, in the laundry room, in a bedroom or in the loft area depending on your floor plan.

Maintenance Corner Cont.

Open the Door to the Service Panel

- Open the door to the service panel by sliding the plastic switch to the side or up. Next, swing the door open. Use the inset plastic switch as a handle to pull the door open.

Locate Tripped Breaker

- The handle of a tripped circuit breaker should be in the middle position—not left or right. Visually or by feel, locate any breaker handles that differ from the right or left positions:
- **Tripped breakers:** Tripped circuit breakers have a soft or springy feeling when you lightly press them leftward or rightward.
- **Live/active breakers:** Breakers that are not tripped are either firmly left or right (depending on which side of the box you're looking at).

Turn the Circuit Breaker Handle to OFF Position

- Flip the circuit breaker handle to its firm OFF position, toward the outer edge of the service panel (away from the centerline).

Turn the Circuit Breaker Handle to ON Position

- Flip the circuit breaker handle to its firm ON position, toward the centerline of the service panel. The handle should seat firmly in place and should make an audible click.

Test Circuit

- Turn the device such as the light or A/C back on. If you believe the breaker tripped due to an overload, it's best to turn on only one device at this time, not multiple devices. Also, choose a device with a lower power draw such as a light fixture.
